

### **C. EQUITABLE PARTICIPATION (34 CFR §300.138)**

It is Pennsylvania Department of Education policy that the Intermediate Unit (IU) must locate, identify, and evaluate all children with disabilities who are enrolled by their parents in private, including religious, elementary schools and secondary schools located within IU service area.

In circumstances when parents place their children in private schools, when FAPE is not an issue, the IUs must make provision, to the extent consistent with the number and location of children with disabilities who are enrolled by their parents in private schools, located in IU service area, for the participation of those children in the program assisted or carried out under the IU plan, by providing them with special education and related services, including direct services determined in accordance with regard to equitable participation (EP) agreement between private schools and IUs. A service plan must be developed and implemented for each private school child with a disability who has been designated by the IU in which the private school is located to receive special education and related services as determined by EP agreement.

No parentally-placed private school child with a disability has an individual right to receive some or all of the special education and related services that the child would receive if enrolled in a public school. Due Process and State Complaints are not applicable, except for a suspected failure by the IU to meet child find requirements.
